**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I'm a residential fiber optic internet customer in California. My service provider, Sonic, is reliable and customer-service oriented to a degree which is rare in this day and age; I also use them for my home phone. I rely on my fiber optic internet service for my job and home entertainment needs and respectfully request that you foster an environment which includes competition. Any change in legislation that would result in a cost increase would be a financial burden to me.

I was a DSL subscriber until about a year ago, and upgraded to fiber. Under no circumstances do I want to be compelled to take a step backwards in terms of speed and service of my internet.

Thanks for your time.

David Mussay
